

## **Employment Support Program**

The Arc of Orange County's Supported Employment Program offers individualized services focused on the client's strengths and abilities. Referrals are received from a variety of sources such as: Vocational Rehabilitation; Orange/Person/Chatham LME; self-referrals. Based on the individual, services provided will include: Assessment and Evaluation; Job Development and Placement; 1:1 Job Training and Feedback; Job Stabilization and Retention; and Long-Term Follow Up.

Several individuals participating in The Arc of Orange County's Employment Support program are currently employed in a variety of settings within the Orange County community. We also offer an enclave setting which provides an employment opportunity for individuals who work better in group situations and respond best to continual supervision.

For more information about the Employment Support program, please contact Michelle Merritt, Director of Employment Support at (919) 942-5119 ext. 122 or email [mmerritt@arcoforange.org](mailto:mmerritt@arcoforange.org).
